## FOREST FIRE PREVENTION IS EVERYBODY'S BUSINESS

New Hampshire faces a continuing challenge in its forest fire problem - 97 percent of all our forest fires being man-caused and preventable - a serious indictment of interest in our own welfare and that of our neighbor. Both the State and the towns are striving diligently to effectively meet the challenge through education of the public to the threat fire presents to our woodlands; by maintaining a well trained corps of wardens and deputy wardens in every community and by providing ample opportunity for all who wish to dispose of unwanted waste materials. Careless and perverseness, however, continue to be the big hurdles.

Thoughtlessly discarded lighted cigars, cigarettes and matches from moving vehicles, by hikers, hunters and fishermen; careless burning of debris during hazardous periods in dangerous locations; illegal burning; improperly extinguished debris, camp and cook fires - all result in serious loss of property disruption of industry and farm work and unnecessary expenditure of town and state funds.

To meet the challenge successfully, the state, your community and your local forest fire warden need YOUR thoughtfulness and cooperative effort - The rules are simple.

1. Don't burn at home - use your town dump and avoid all fire problems.
2. If you do burn, be sure to secure a written permit from your local forest fire warden when the ground is not covered with snow. Permits are required for open debris fires, home incinerators, outdoor fire places and camp fires. Your warden is instructed to permit burning if weather conditions, site and type of burning are safe.
3. Be sure that all lighted material - cigars, cigarettes and matches - are completely out before discarding them. Use ash trays in automobiles.
4. Make certain that your debris, camp and cook fires are completely out before leaving them.
5. Insist that others be careful and comply with burning requirements.
6. Call the warden promptly when fire is detected and aid him to extinguish it.

REMEMBER - the fire you prevent might be the one which could burn YOUR property.

REMEMBER - FOREST FIRE PREVENTION is EVERYBODY'S BUSINESS and our MOST IMPORTANT UNDERTAKING

## YOUR TOWN DUMP

## Use it freely

## Care for it

Your town dump has been set up for your personal convenience. It provides a suitable place where you can dispose of the large amounts of dangerous, inflammable waste material and other useless items which accumulate around your household and local stores, brush, etc., cut on your property. The town dump has become a valuable and indispensable asset in modern community life.

The most successful town dumps are supervised—regular days provided for their use and inflammable material consistently burned. The town dump which receives no attention, where waste material is scattered about without supervision of any description, soon becomes a community menace and a liability rather than an asset.

Many people still burn debris around their homes. A large number of such fires get out of control causing unnecessary damage and expense to the burner. Why burn at home? Make use of your town dump and eliminate the hazard of burning. It will be easier for you—personally and financially.

If, however, you do burn on your premises

1. Secure a permit from your local forest fire warden — the law requires it. The warden won't refuse you if conditions are safe.
2. Be sure to properly supervise your burning. Don't leave it.
3. Make certain your fire is DEAD OUT before leaving it.

Save yourself much possible difficulty.

## Use your dump freely

## Help keep it safe

One disadvantage of the new building at Newbury was the lack of space for play area. The School Board has been gradually making improvements to the school lot to take care of this problem. The use of town equipment has been most helpful in making additional space available. It is hoped that over the years additional space can be provided.

We have been fortunate in keeping our teachers in Newbury over a long period of time, a fact that has been most helpful to our educational program in Newbury. The supply of teachers continues to be very critical, and most girls prefer the larger towns or cities. When a town has good teachers every effort should be made to keep them.

Miss Blanche Bailey has been our music teacher for the past twelve years, serving the towns of Bradford, Hopkinton, Newbury and Sutton, Warner and Webster. Although she had a busy schedule the first year, increasing demands have been made on Miss Bailey each year. The music program in the two high schools have increased, and, with the New Minimum Standards set up for the high schools, further demands on her time will be demanded to further aggravate the problem. Hopkinton is adding six more classrooms next year.

This means that we will have to make some adjustment in our music program next year. Miss Bailey and I have been working on a possible solution. One possibility is an additional music teacher, and eventually the district will have to have two music teachers. The other possibility is that we will have to adjust the amount of time that she spends at each school. This can be done for a year or two.

Whatever the solution may be the joint school boards will make the final decision which I am sure will be in the best interest of all the children in the district.

The ski program and the lunch program continue to be excellent ones that the community can be justly proud. We have an excellent educational program in Newbury and every effort should be made to keep it that way.

The spirit of the school and community is very fine and I enjoy my visits to Newbury.

# OUR TOWN and YOUR TOWN

Our Town to live in and enjoy the year round, your Town to come to and enjoy the few days, weeks, or months that you can get away.

We are proud of our Town and we know you feel the same way to. We realize the great part your Tax Dollar plays in making it a good Town.

No Town or City can afford to stand on its Laurels forever, we must expand to some extent with the times. This is a must to help carry on the cost of maintaining a Town that you want to call your Town.

There is plenty of room in our Town to build, homes for year round, summer use, camps, hunting or ski lodges. As you know we are located in the HEART of the best of both.

There are ample skilled and unskilled workers in the area to supply the needs of Small Industries and plenty of good sites for building.

If you know of some one that is looking for a place to locate and you feel that they would be right for Your Town, get in touch with the Newbury Development Committee.

We thank you.
